

naumi LIORA

YOUR DELIGHT, YOUR HOTEL

Light Up Your Stay

The Design

Naumi Liora is designed by Gaurang Khemka, founder of Singapore-based award-winning design firm URBNarc and boasts a design concept of an old yet modern charm that is strongly reflected throughout the hotel.

To remain true to the inherent spirit of the 1829s Peranakan-styled building's heritage that Naumi Liora is housed in, the original timber flooring, French-styled windows and 'five-foot-way' have all been traditionally preserved.

Naumi Liora's vibrant building facade symbolizes a reassuring beacon of light awaiting its traveller's return and this theme is resonant throughout the hotel. Through the use of its signature light motif alongside a harmonious balance of warm and vibrant colours such as hues of Chalk and Pumpkin, the craftsmanship of Naumi Liora creates an intimate environment that invigorates and soothes at the same time.

Abstracted from the lattice design of traditional Peranakan tiles as well as the original metal railing pattern from the exterior of the hotel, these light motifs are also translated into timber screens and used strategically from the lobby to the rooms in their various states of work and play - reminiscent of Chinatown's illustrious past as well as the more vibrant environment that Naumi Liora presents.
