Singapore's [Naumi Hotel](#) has launched Chanel and Warhol inspired rooms, both decked with designer furnishings.

Chanel Room, Gabrielle

With chic monochrome and pale green hues, the Chanel rooms feature Artistic interpretations of Coco Chanel's iconic flower the Camellia which grace the walls, alongside lush floor-to-ceiling silk curtains. Large bathrooms have freestanding baths and a powerful rain-shower, and a smokescreen bathroom glass panel which switches from clear to frosted at the touch of a button.

Andy Warhol Inspired

Artistic license reigns in the Andy Warhol inspired rooms, decadently designed, with standout furniture featuring the iconic arm chair, "La Mamma" by B&B Italia paired with floor lamp, "Fork" by Diesel Foscarini. The Andy Warhol themed rooms feature specially commissioned artwork by award winning photographer Olivier Henry of the Singapore skyline and Thai artist Pariwat. Decked out to resemble a swanky New York penthouse apartment, the oversized bed takes centre stage, with a fabulous circular bathtub hidden behind a revolving screen.
